# WhatsApp

WhatsApp is a popular internet messaging service, owned by Facebook, that is seen as a simple way to communicate with friends and family - you can use it as long as you are connected to the internet.

## Starting from the beginning

1. **Download:** free from the App Store, and open.
2. **Configure your profile:** this is what others will see - ie your name and profile photo. Click the SETTINGS tab and then select your name at the top of the screen.
3. **Create your group:** from the main CHATS tab click the + icon and select NEW GROUP. You can then select participants from your phone's contact list.
4. **Add new people to the group:** from the group click on the GROUP NAME at the top of the screen to see the GROUP INFO. Scroll down to ADD MEMBERS, you can either add people from your contact list or INVITE TO GROUP VIA LINK (this creates a link that you can share with people to join the group).

LET'S GET READY TOGETHER!
